

A new initiative between Tarrington Church and The Lady Emily Hall

WHATEVER YOU ARE CELEBRATING

COME ALONG AND SEE WHAT WE HAVE TO OFFER:
SUNDAY 19TH SEPTEMBER 2010 11.00AM TO 4.00PM

In Tarrington we are privileged to have the exceptional facility in The Lady Emily Hall which plays a major part of our village life. In a tranquil setting and away from the busy main road it has good transport links to Hereford, Ledbury, to the motorway and beyond but boasts of all the facilities that are required for a modern venue with extensive car parking, children's playground, disabled as well as modern toilets and a large, well equipped kitchen. However, although it has been hugely extended and thoroughly modernized the interior retains the overall 'look' of the school that it once was with cavernous ceilings and not the intimate or romantic destination that is sought for a wedding, or other celebrations.

As a result of an enormous amount of research, planning and foresight it has been decided that as a completely new initiative we would endeavour to 'promote' the Hall; either separately or jointly with the church; as a professional wedding venue.

BUT ONLY AFTER A MAGIC TRANSFORMATION

Wyes Marquees will transform the Hall with stylish and elegant linings, swags and chandeliers. The illustrations from their brochure, together with suggestions from their professional designer suggest options to suit any occasion. The entrance hall can be swagged and decorated to create an atmospheric entrance to receive your guests. The front or rear terrace can be enjoyed for pre-reception drinks: with the views of the Herefordshire hills stretching into the distance.

We are proud to be associated with **Café-Ascari catering** who will present the Hall as set for a wedding reception with round tables, banqueting chairs, white linen and all the fine detail that gives it the 'WOW' factor! We acknowledge their reputation within the county and beyond! The way in which the hall can be transformed is only limited by your imagination.

Tarrington is a quiet, rural village and our beautiful 14th Century country church is within walking distance of the Hall. The church bells have rung over the valley to celebrate the Christian union, or Blessing, of couples over hundreds of years. So, please come and visit our well loved church and soak up the atmosphere and experience the blessing that it can give and imagine your 'day of days'

Please come, all are welcome.
